

“GET THE RIGHT SKILLS” POLICY

We’re driven to provide you with practical skills that you can use immediately back at work. To help you learn the skills you need, our ‘get the right skills’ policy allows you to swap online courses after the first module or session if you don’t think your enrolled course is right for you. It’s applicable for all online courses.

Simply email us on iq@adma.com.au within seven days of completing the first module and we’ll work with you to find a more suitable course. Note: the policy doesn’t apply if you start the second module (or if seven days have elapsed).

You can swap online courses once only for each enrolment.
